*Tools & Methods:* Git, GitHub, AWS, S3, RSpec, TDD, Linux, Agile, Waterfall

## PROFESSIONAL EXPERIENCE

Freelancer

Amman, Jordan

**Full-Stack Developer**

**Nov 2022 – Present**

*Tech Stack: Next.js, Redux, API, AWS RDS, PSQL, Tailwind, Prisma ORM, AWS S3, Ruby on Rails, Bootstrap, CSS.*

- Launched and deployed over 5 Full-Stack side projects and freelanced assignments on AWS, Netlify, and Heroku, optimizing client performance by 20% and ensuring responsiveness for both Mobile and Desktop views.
- Developed "Crypto Blog," a Next.js web app with Prisma for real-time cryptocurrency data, featuring community-driven discussions, comments voting, and secure authentication through NextAuth.
- Engineered "Supplement-Register," a Next.js 13, Prisma, and MySQL-powered app managing inventory, invoices, and daily sales tracking. Utilized AWS S3 for image uploads and RDS PSQL as a database, including downloadable PDF invoices.
- Developed "Budget-App," a Ruby on Rails app for iOS/Android, facilitating expense tracking, budget goal setting, and insights into spending habits.
